

Strategic Plan

2016-2020

Vision

Healthy
People,
Strong
Communities

Strategic Directions

Health Equity Advance our culture of inclusion and diversity in the health centre and with our communities

Healthy Communities Focus resources to advance client and community wellness

Collaboration & Innovation Advance quality services by working together

Mission

Working with our communities, we provide primary health care, health promotion, and community development, with a focus on people who face challenges to accessing care.

WELLNESS

Values

Person-Centred Care

We work with individuals and communities to create plans for maximum health and wellness, grounding our work in the social determinants of health.

Collaboration

We make the best use of individual talents and resources through teamwork and community partnerships,

Respect

We respect the uniqueness of each person and each community.

Accountability

We approach our work with integrity and take ownership for our actions and results, both at an individual and collective level.

Excellence

We focus on best practices, evidence-based approaches, innovation, and ongoing evaluations and continuous improvement in everything we do.
